"Dynamic professional with 4+ years of experience in full stack development, leveraging expertise in JavaScript, TypeScript, Python, React, and more. Transitioned from a career in health and fitness to drive business results through scalable, performant, user-friendly web and mobile applications."

Top Technical Skills

- Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL
- Frameworks/Libraries: React, React Native, Next.js, Redux, Django, Node.js, Express.js, Jest
- Tools/Databases: AWS, Docker, REST, GraphQL, Git, PostgreSQL, MongoDB, SQLite
- Soft Skills: Scrum, Agile, Note Taking, Debugging, Unit Testing, Integration Testing, Mentoring

Experience

DataAnnotation Tech and Outlier – AI Model Trainer | Remote | Freelance | February 2024 – Present

- Training AI models by annotating data, comparing model responses, and thoroughly evaluating response quality.
- I use JavaScript, Python, and SQL to analyze model responses and create code with instructions for prompts. I check for correctness, verbosity, formatting, alignment with prompt instructions, and more.

CodeMentor – Full Stack Software Engineer and Mentor | Remote | Freelance | 2023 – Present

- Provide live mentorship, code reviews, debugging help, and project guidance to aspiring software developers.

iFIT – Software Engineer | Remote | December 2020 – November 2022 (laid off – not performance related)

- Full stack development in prominent sections of app with over 6 million active users.
- Implemented new features, fixed critical bugs, and performed code reviews using TypeScript, AWS (Lambda, S3, CloudWatch), React, React Query, Redux, and Node.js. App was mobile or embedded in fitness equipment.
- Collaborated with developers, QA, and Product Managers to ensure product scalability and optimal user experience.

Kinetic Vision – Full Stack Web Developer | Cincinnati, OH | July 2019 – August 2020

- Worked on full stack projects for a Fortune 100 company and small companies, primarily using React, TypeScript, Python, Tornado, Apollo, Docker, SQLAlchemy, matplotlib, NumPy, GraphQL, and PostgreSQL.
- Led projects with co-ops, managed client meetings, estimated timelines, wrote and reviewed code, mentored co-ops, tested, and deployed software.

84.51° / Launch Scout – Software Engineer Apprentice | Cincinnati, OH | November 2018 - May 2019

- Full-time apprenticeship working on Kroger's marketing platform at 84.51 with a mentor from Launch Scout.
- I learned Java, Spring Boot, Angular, integration testing, end-to-end testing, design patterns, data structures, and algorithmic problem while on the job by spending extra time studying, practicing, and creating small side projects.

Education

Full Stack Academy of Code | Software Engineering Bootcamp Certification | Chicago, IL | 2018

- 17-week top-ranked coding bootcamp covering JavaScript, React, Redux, Express, Node, SQL, and much more.

University of Illinois at Urbana-Champaign | Bachelor of Science in Kinesiology | 2016

- I took general engineering my first two years, before declaring Kinesiology as my major.

Top Projects

Top 5 Dating App (solo) | GitHub Frontend, GitHub Backend | 2023 – Present

- I completely designed and developed the entire project from scratch myself with the goal of releasing it to the Apple App Store and Google Play Store.
- A React Native mobile app using TypeScript, Python, Django, Expo, and MongoDB.
- Completed full stack functionality, Django authentication with JWTs and blacklisting, user creation, UI layout, color scheme, login screen, potential matches screen with card swiper, basic current matches screen, and much more.
